SINCE 1919 • THE ART OF ITALIAN FURNITURE

MONTINA 1919

Foundational Manifesto: The Art of Shaping Time

> *"Over a century of passion for wood and industrial design. Our manifesto is a promise of quality, authenticity, and respect for Italian craftsmanship that guides every chair, table, and furnishing element signed by Montina."*

01 / ROOTS & FUTURE

Memory and Innovation

Founded in 1919, we believe true innovation stems from history. Our centuries-old heritage is not a museum burden, but a living energy guiding every joint, bending, and contemporary curve.

02 / THE MATTER

Noble Vitality of Wood

Wood is a living material and a witness of nature. We respect its identity by enhancing its grain, texture, and warmth through exceptional craftsmanship and planet-conscious processes.

03 / DURABLE DESIGN

Beyond Fleeting Trends

We reject the culture of fast consumption. We create objects designed to inhabit spaces with elegance and measured rigor, capable of passing through generations while keeping their beauty intact.

04 / CRAFTSMANSHIP

Know-How & Technology

True Made in Italy stems from the fruitful encounter between the artisanal mastery of our craftsmen and precision technology. Human ingenuity remains our primary resource.

05 / SUSTAINABILITY

Respect for the Environment

Creating beauty requires responsibility. We guarantee the traceability of raw materials from responsibly managed forests and reduce the environmental impact of every single production phase.

06 / HUMAN RELATIONS

Community and Dialogue

People, designers, craftsmen, and clients are the soul of our ecosystem. We cultivate an inclusive and transparent environment based on mutual esteem, shared creativity, and lasting trust.

"We carve wood, shape ideas, and furnish time."
